

### AHMAD MOUALLA at Naila Art Gallery, Riyadh – KSA.

After many years of experience in which he moved from being fascinated by forms, colors, materials, images, composition and structures, to mastering the craft, and the profession, and after studying on the highest levels and teaching, we find him announcing that he liberated himself from the professional craftsmanship and that he is biased to what is human in the experience. This enabled him to convey his honesty and feelings to us. Tajalliyat & Naila Galleries had the pleasure to present the painter Ahmad Moualla, who proved his international presence in various congregations, and present his works in an attempt to enjoy works that reflect commitment to art and man.
