51 oil and watercolor paintings showcasing human portraits (especially women) and the various difficulties people face in life, that is what Krikor NORIKIAN will be exhibiting at the Hamazkayin Art Gallery during the upcoming days.

## Norikian at Hamazkayin Art Gallery

The opening ceremony of the exhibition of Lebanese-Armenian painter Krikor Norikian's works was held on February 25, 2010, at 6:30 p.m., at the Hamazkayin Lucy Tutunjian Art Gallery.

The opening of the exhibit, which features Norikian's oil and watercolor paintings, was attended by numerous Armenian and non-Armenian artists and art lovers.

The opening speech was given by Carla Tutunjian, who presented Norikian's brief biography. She said that Norikian emigrated to Paris in 1976, because of the Lebanese Civil War, and returned to Lebanon in 2003. He has held numerous critically acclaimed exhibitions in Lebanon, Canada, France, Germany and the United States. Norikian has received the St. Mesrob Mashdots Award by the Catholicos of the Holy See of Cilicia of the Armenian Orthodox Church, Aram I, in recognition of his significant input in the arts.

Tutunjian explained that Norikian has a series of paintings that, through the black eyes of women and children, depict the Armenian Genocide and the experiences of those who were subjected to it.

In his speech, Norikian thanked the Hamazkayin Armenian Educational and Cultural Society for organizing the gathering at the Lucy Tutunjian Art Gallery. He said that this exhibition is the best opportunity for him to listen to visitors' opinions and feedback about his creations.

The exhibition presents 51 artworks by Norikian, showing human portraits and the various difficulties people face in life. Norikian's works focus greatly on women — their characters, emotions, pains, tenderness, love and innocence.

The exhibition will be open till March 15, 2010, Mondays through Saturdays, from 10:00 a.m. till 8:00 p.m.

## Une difficile synthèse entre la rigueur et la sensibilité Exposition Norikian à la galerie d'art Hamazkayin

GALERIE HAMAZKAYIN ORGANISE LINE EXPOSITION DES CEUVRES DE NORIKIAN. LES PEINTURES DE CET ARTISTE RÉSULTENT, VISIBLEMENT D'UNE RECHERCHE SYMBOLISTE D'UNE CERTAINE RÉALITÉ, REFLÉTANT DES MOMENTS DU VÉCU DU PEUPLE ARMÉNIEN, UN PEUPLE PROFONDÉMENT MARQUÉ PAR LE DRAME DU GÉNOCIDE. C'EST POURQUOI, TOUTE INVENTION DE FORME, TOUTE FIGURATION SYMBOLIQUE DU SENTIMENT ET DES IDÉES A, DANS SA PRODUCTION L'ÉLAN PROPRE ET LE CONTRÔLE DE LA CHOSE VUE.

Il évoque, dans ses réalisations, la nostalgie et l'atmosphère des régions, lieux et rend, à travers ses œuvres, une "couleur locale" bien Certaines obravée. compositions érisent par leur réalisme où la sensibilité ca de l'artiste s'allie à une technique éprouvée.

Le dénominateur commun aux modes d'expression, aux rythmes graphiques et chromatiques qu'il tire de ses sujets et ceux que son sentiment introduit à l'intérieur de ces rythmes, est l'expression et l'exigence de la vérité. Il condense dans les limites du schéma visuel, en une organisation de signes, de formes et de couleurs, chaque élément de l'apparence, en le suivant dans sa transformation et son évolution vivante.

#### FORME, PERSPECTIVE, LUMIÈRE, SENSIBILITÉ

Norikian dessine d'abord, le modèle dans toute sa simplicité avant de le livrer à la couleur et par elle s'expliquer avec lui et par lui s'expliquer avec elle. Cette dialectique du trait, de la forme et de la couleur, l'a amené à entrevoir les possibilités d'une expression figurative, à la lisière du symbolisme et du surréalisme, à travers laquelle il est parvenu à exprimer le meilleur de son talent. Il conçoit l'espace comme doué d'une signification plastique s'exprimant par le graphisme et la couleur.

Fleurs dans un vase blanc

Son dessin est la clarté même, il ne constitue pas seulement pour lui un stimulant mais, aussi, un champ d'expérimentation totale où, en laissant transparaître le tumulte de ses intentions. il révèle, néanmoins, l'élan primordial de son inspiration. La minutie de son dessin transcrit, tout autant que sa peinture, la nature profonde de son expression. Précis essentiel, sans nulle sécheresse, il réalise une difficile synthèse entre la rigueur et la sensibilité. Sa production est essentiellement enracinée dans la tradition figurative. Esprit curieux et épris de perfection, il a voulu tout faire entrer dans l'œuvre: forme, espace, rspective, lumière, sensibilité, dynamisme et stabilité. Tout en reconnaissant comme base de

son inspiration la nécessité de la chose vue, l'art véritable, pour lui, est dans la réalité sentie et c'est pourquoi il est souvent pris par le besoin de recréer et d'interpréter les éléments du réel. Le tableau devient une œuvre, capable de communiquer directement, presque à l'insu de celui qui l'a conçue, les vertus simples et concrètes dont elle est chargée.

Norikian a opté, en somme, pour un langage plastique où les ardeurs et les découvertes de l'art moderne s'unissent aux contraintes et aux règles de la forme et de la composition, telles que les avaient admises et perfectionnées des séries d'expériences. Il a conçu l'espace comme doué d'une signification plastique s'exprimant par le graphisme et la couleur.
